Evansville's Spring Yard Waste Service Begins April 4, Ends April 29

EVANSVILLE, IND. – The Evansville Water and Sewer Utility's annual Spring Yard Waste Service will begin Monday, April 4, 2022, and continue through Friday, April 29, 2022. Unlimited bags, containers, or bundles of yard waste will be accepted from customers eligible for the service. The service is provided to assist City residents with extra yard waste generated while cleaning their yards in the spring. There is no extra charge for the service.

How it Works

- Republic Services, the contractor for the City's trash and recycling services, will pick up unlimited bags, containers, or bundles of yard waste on the day of your regular trash collection.
- Yard waste must be placed next to your City trash cart.
- Yard waste must be properly contained in plastic bags or tied in bundles no more than 4 feet long and 2 feet in diameter weighing less than 50 pounds, or loose in containers weighing less than 50 pounds.
- No special bags are required because the waste will be taken to the landfill.

What's Allowed

- Spring Yard Waste Service is for organic yard waste like grass clippings, hedge and tree trimmings, garden plants and garden trimmings.

Who's Eligible

- Spring Yard Waste Service is available to City residents who pay for trash service with their EWSU water and sewer bill. Apartment complexes, mobile home communities, businesses, commercial customers and County residents are not eligible.

Remember, extra materials outside of the City trash and recycling carts will only be picked up during the annual Spring Yard Waste four (4) week period April 4 - 29. Yard waste may also be placed inside the regular 96-gallon City trash cart throughout the year.

More information on the Spring Yard Waste Service is available at [ewsu.com](https://www.ewsu.com). Click Trash & Recycling for a link to [Seasonal Yard Care Collection](#).

About EWSU

Evansville Water and Sewer Utility (EWSU) provides high-quality, safe and dependable water and sewer services to more than 63,000 customers in Vanderburgh County and parts of Gibson, Posey and Warrick counties. EWSU maintains more than 1,000 miles of water lines, 800 miles of sewer lines, 15,000 hydrants, seven water storage facilities, two wastewater treatment plants and one water filtration plant. The utility also manages the City's street sweeping and trash and recycling contracts. EWSU meets or exceeds all state and federal Safe Drinking Water Act standards while protecting land and water resources for future generations.
