

# Vanderburgh County *CASA*

The CASA program was established to directly benefit abused and neglected children in the community. CASA volunteers are appointed by the court to advocate for children in abuse or neglect cases. Program volunteer coordinators work with volunteer advocates to serve as a “voice” for the children; to make sure they don’t get lost in the legal and social service system. Volunteers stay with each case until it is closed in court and the child is placed in a safe, permanent home. For many abused and neglected children, their CASA volunteer will be the only constant adult presence in their lives. CASA of Vanderburgh County greatly benefits the community by giving the most vulnerable children the opportunity to thrive in an environment that will allow them to grow into well-adjusted, productive citizens of society.
